LOADSHEDDING : SOLAR SYSTEMS / GENERATORS ETC

Dear Resident

According to all indications the estate will in the coming weeks be affected by loadshedding, as in the rest of the country.

With the improvement in technology, we would like to request that owners make use of solar/battery systems. Wind charging systems, gas and petrol fuel generator installations must comply with technical requirements which are currently being revised. We request residents not to acquire a type of system that does not comply with the specifications.

We will refer back shortly with the complete rules for the installation and use of the alternatives.

BEURTKRAG : SONPANELE SISTEME / KRAGOPWEKKERS ENS

Beste Inwoner

Volgens alle aanduidings gaan ons landgoed binne die volgende paar weke ook onderhewig wees aan beurtkrag, soos in die res van die land.

Met die verbetering in tegnologie wil ons graag inwoners versoek om van sonkrag/batterystelsels gebruik te maak. Windlaaistelsels, gas en petroleum brandstof kragopwekkerinstallasies sal aan tegniese vereistes moet voldoen wat tans hersien word. Ons versoek dus dat inwoners nie nou ander tipe stelsels aanskaf wat dalk nie aan spesifikasies voldoen nie.

Ons sal binnekort meer volledige reëls beskikbaar stel vir die installasie en gebruik van hierdie alternatiewe.
